Subject: Puerto Rico coal ash case
20130214 v3 Addendum to Notice letterhead.pdf

This is a heads up that we are mailing out the attached supplemental notice letter today.

I will be in touch in due course to discuss the additional claims with you. Note especially that the LEAF tests show major potential for environmental pollution as well as drinking water pollution. If you would rather I discuss this matter with an attorney representing EPA, please provide me with the attorney's name. Thanks very much for your work on this so far.

Regards

Richard Webster, Esq.
